2. Update on RCAC Bottled Water Delivery
3. 700 Forms due from KCSD Board members
3. Leak behind the Keeler Fire House: In August, the leak was a drip that eventually became a flow and filled up the alley with water. It was not an emergency at the time, but it became a hazard. McMor applied a fix that slowed the leak, but was not able to do a dry repair, due to a faulty valve. It may be necessary to turn off water to the community for several hours to do a complete and the repair would be at the expense of the Keeler Community Service District
