

## **Resolution #235**

### **Clean Air Projects Program II Grant Submittal**

Whereas Inyo County is administering Grant Funding on behalf of Great Basin Unified Air Pollution Control District for projects that directly or indirectly reduce air pollution;

Whereas the Clean Air Projects Program (CAPPII) guidelines accept submittal from government agencies;

Whereas Keeler Community Service District has a grant application to reduce air pollution at two locations within the KCSD jurisdiction;

Whereas water from the KCSD Well has been instrumental in the success of the Keeler Dunes Project, and safety of the well relies upon a berm realignment;

Whereas laying crushed dolomite on the access road on Old State Highway and surrounding graded area would reduce dust pollution;

Therefore, the Keeler Community Service District does hereby approve the submittal of these two projects to Inyo County for consideration of grant funding through the Clean Air Projects Program II (CAPPII)
